Call to Order

President Muether at 3:41 (Tech issues with Teams)

Approval of Minutes

[August 24, 2024](#) – passed unanimously as submitted

Informal Statement

None

President's Report

- [WSU Office of Community Partnership](#). Brief overview provided. Many policies are still under development. Will launch this fall; updates will be shared with FS.
- [Civil Discourse](#). Brief overview provided. A Flashpoint Response Team has been developed to provide proactive communication to support freedom of expression while simultaneously maintaining safety for all. Suggestion from a senator that faculty be included in the development of resources. Kansas Leadership Center will also be providing some training on civil discourse for all.
- [Paid Applied Learning](#). WSU has received \$5 million in state funding to support paid applied learning, \$4 million allocated to Academic Affairs. There are two priorities: provide funding for experiences that have not traditionally had funds and to provide data on how the funds were used. More information and the application and rubric should be available soon.

[SCCS Report](#) – Kyle Wilson provided an update. Now tracking Artificial Intelligence (AI) in reports, will have data moving forward. Discussion on AI detection tools, WSU does not support the use of these tools as they are not considered reliable.

Update from Faculty Senate Evaluation Alignment Committee – Dr. Rachel Crane provided an update. The [Faculty Annual Activity Report](#) (FAAR) program is ready for faculty to start entering their data. More resources will be available over time including training for schools/departments across campus. T&P will be in the new system next year.

As May Arise

Senator Moody requested follow-up regarding students enrolled in fully online programs paying fees for on-campus resources they do not use.

President Muether provided follow-up on the faculty pool for SCCS hearings. We need to maintain the pool at its current level and consider extending the term from 1 year to facilitate keeping the pool viable.

Adjourn

President Muether adjourned the meeting at 4:57

Minutes prepared by Rhonda Williams
