How to choose your sessions

Today is designed to maximize your options for training. You will want to choose your schedule carefully, as some of the events overlap. We have 5 kinds of training opportunities for you to choose from:

> ➢ Breakout Sessions: There are four breakout sessions during the day. Each time slot has four different topics to choose from. You are welcome to go to any of the sessions throughout the day. Sessions One and Two each have a topic that is GTA recommended, but all attendees are welcome to come to these sessions, whether or not they are graduate students.

> ➢ Special Lunch Sessions: These are longer sessions, designed for a deeper dive on the chosen topic. You are welcome to go to one of these sessions, or if you prefer, you can use the long break to go to the Labs or the Sales Room. GTA's are required to attend the GTA Mandatory Session.

> ➢ Key Trainings: Many classrooms have a "gray media box" that requires a key. You can get a key by attending one of these two sessions today, but if you can't find time to attend a Key Training today, there are many others scheduled for the main campus. Today's Key Trainings will be held in MX 130.

> ➢ Labs: MX 130 will host come-and-go lab time all day. You can get help from ITS's Desktop Support, ITS's Technology HelpDesk, IDA's Blackboard Lab, AAA's Accessibility Lab, and from the Library. The lab is open all day, even during Breakout Sessions, so schedule your day accordingly.

> ➢ Sales Room: MX 142 is where you can learn what materials you might need for your classrooms, and have a chance to buy some of them at a greatly reduced cost. We are set up to take credit/debit cards and to charge to and org/fund number. The Sales Room is staffed by Glenn Gunnels, and he can help you pick what cables and adapters you are likely to need for the term.

Session Tracks

Each Breakout Session is designated as being in a particular conference track. You may choose from any session, regardless what track it is in. You do not have to stay in the same track all day. If you choose to go to three sessions within one track, however, you will earn a digital credential in that track. Digital credentials will be awarded to you through the Credly service, and they will come to your WSU email address within a few days of the conference. Digital credentials contain information about the training you received, when and where you received it, and they can be shared on social media and on a digital resume or CV.

Our session tracks are:

➢ Teaching (5 available sessions, one session presented twice)
➢ Educational Technology (4 available sessions, one session presented twice)
➢ Accessibility (4 available sessions)
➢ Microsoft Basics

Conference Website and Social Media

This conference has its own website where you can find digital versions of handouts and othe

supportive information. You can find us at https://www.wichita.edu/services/mrc/WSUARC/

We are also live tweeting this event. If you would like to join the conversation please use:
